

Wildflowers of the Antelope Valley

- Jane Pinheiro Interpretive Center

POPPY FAMILY
(Papaveraceae)

A black rectangular sign with rounded corners is mounted on a light-colored stone wall. The sign features a small circular logo on the left side, which depicts a yellow flower. To the right of the logo, the text "Antelope Valley", "California", and "Poppy Reserve" is written in white, stacked vertically. The sign is positioned in the middle ground of the image, behind a field of yellow poppies.

Poppy Reserve

CALIFORNIA POPPIES

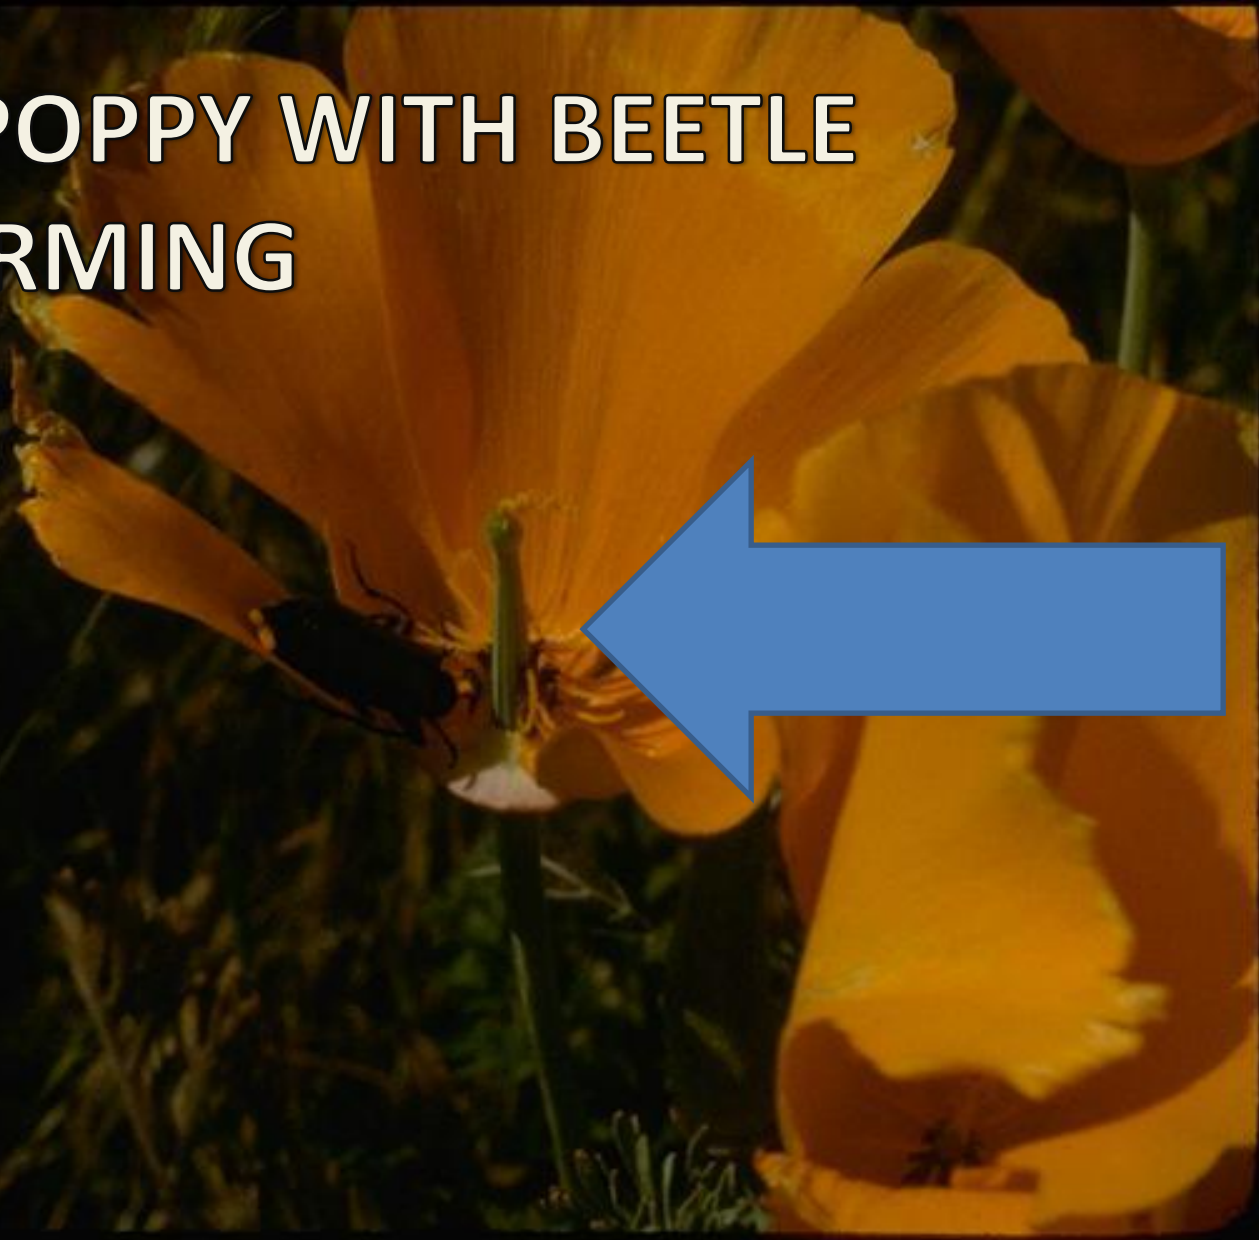

A photograph of a field of California poppies and filaree flowers. The poppies are bright orange and the filaree are small purple flowers. The ground is sandy and covered with green grass. The text "CALIFORNIA POPPIES & FILAREE" is overlaid at the bottom of the image.

PARRY'S GILIA

(Fairy Boutonnieres, Sandblossoms)

Figwort, Plantain & Snapdragon Family

***(Orbanachaceae, Scrophulariaceae,
Phrymaceae, and Plantaginaceae)***

A photograph of a field of flowers. In the foreground, there are several tall, upright stalks of Owl's Clover (Lupinus albus) with dense, rounded heads of pinkish-purple flowers. Interspersed among these are numerous smaller, bright yellow flowers, likely Goldfields (Ternstroemia aurea). The background is filled with more of these yellow flowers, creating a vibrant, colorful scene. The text 'OWL'S CLOVER (with goldfields)' is overlaid in white with a black outline on the upper left portion of the image.
